

liquid cleaners/degreasers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Solvent-Based Degreaser
- Non-Hydrocarbon-Based
- Designed for Use with Fuel/Oil and Water Separator Recovery Systems
- Completely Biodegradable
- High Flash Point (280° F)

TYPICAL PROPERTIES

- Vapor Pressure: **N/A**
- Volatility: **98**
- Solubility: **Non-Soluble**
- Specific Gravity: **0.881**
- Vapor Density: **Heavier than Air**
- pH: **N/A**
- Evaporation Rate: **N/A**
- Physical Description: **Clear, brown liquid w/bland odor**

SAFETY CAUTIONS

- Keep out of reach of children.
- Store in closed, labeled containers.
- Avoid open flames.
- Refer to MSDS for additional safety information.

HMIS RATINGS

ONE SHOT PLUS

Liquid

DESCRIPTION:

ONE SHOT PLUS is a completely biodegradable solvent-based degreaser built without the complications of petroleum or citrus-based materials. It is designed for use in conjunction with recovery systems that use fuel/oil and water separators. ONE SHOT PLUS has a neutral pH and will not affect the water in the recovery system. It actually enhances the effectiveness of the recovery system because it is free-rinsing and demulsifying with water, allowing for easier separation of waste and water. The high flash point (280°F in an open cup test) allows for use throughout most plant or facility applications. ONE SHOT PLUS will liquefy most heavy oils, greases, liquid o-rings, crude, Bunker C, 6-Oil, tar and asphalt.

DIRECTIONS:

Can be diluted up to 5 parts water: 1 part ONE SHOT PLUS, depending on the application. Let stand for a few minutes and up to 30 minutes for heavy soils. Can be used through almost any application method, directly, with a sponge, brush or spray bottle or with a pressure sprayer. Rinse thoroughly with water.
