

liquid cleaners/degreasers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Citrus-Based Solvent Degreaser
- Highly Concentrated
- Non-Flammable
- Environmentally Friendly
- Pleasant Smelling
- Meets All R.C.R.A Regulations

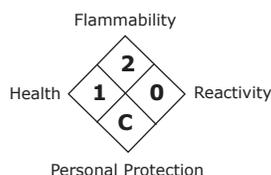

TYPICAL PROPERTIES

- Vapor Pressure: **6.20**
- Volatility: **85**
- Solubility: **Non Soluble**
- Specific Gravity: **0.883**
- Vapor Density: **Heavier than Air**
- pH: **N/A**
- Evaporation Rate: **N/A**
- Physical Description: **Clear amber liquid w/pleasant odor**

SAFETY CAUTIONS

- Keep out of reach of children.
- Store in closed, labeled containers.
- Store away from heat.
- Equipment should be grounded to avoid sparking.
- Refer to MSDS for additional safety information.

HMIS RATINGS

RLP 9000

Liquid

DESCRIPTION:

RLP 9000 is a highly concentrated solvent-based degreaser made from the oils of citrus fruits. The cleaning value of this solvent is considered to be equal to dry cleaning solvent without the environmental hazards that are common with chlorinated solvents and other hydrocarbon solvents. RLP 9000 can be used in many different cleaning systems. RLP 9000 is completely non-flammable when mixed with water and meets all R.C.R.A. rules when mixed according to directions.

Quickly penetrate and liquefy heavy grease and oil deposits with this user friendly product formulated with the help of "Mother Nature." The refreshing citrus fragrance deodorizes as you clean and will not harm most hard surfaces.

DIRECTIONS:

For Cleaning and Degreasing Surfaces: Dilute 1 part of cleaner to 1 part of water to make a thick gel that will cling to vertical surfaces. Dilute 1 part of cleaner to at least 5 parts water to form a regular water emulsion. Apply directly to surface. Let stand two to four minutes before rinsing with clear water.

For Drain Declogging: Pour 5 to 7 oz. directly into drain. Allow to stand for one hour. Flush with hot tap water.

For Drain Maintenance: Add 4 to 5 oz. to each drain. Let stand 5 to 10 minutes. Flush with hot tap water.

For Grease Traps: Pour 10 oz. daily into traps under 20 ft. capacity. Larger traps use 11 oz. Excellent deodorizing.

For Rug and Upholstery Spot Removal: Apply with cloth to affected area and blot. For chewing gum blot on gum. Allow to stand for two minutes. Use a bone scraper to remove gum.

For Laundry Stains: Apply to soiled area. Launder with detergent as usual.

NOTE: For rug, upholstery and laundry spotting always test on an inconspicuous area of fabric before applying.

For Tar, Asphalt and Tire Mark Removal: Apply directly. Allow to stand 2 to 4 minutes. Agitate if necessary. Rinse with clear water.
