BRAKE MAGIC II

Aerosol

DESCRIPTION:

BRAKE MAGIC II AEROSOL is a highly concentrated solvent blend providing maximum performance in a brake parts cleaner without the use of ozone depleting chlorinated solvents. Powerful solvent action easily removes brake fluid, grease, oil, dirt and contaminants from linings, pads and drums, cylinders and springs without disassembling the unit.

DIRECTIONS:

Spray brake parts liberally and allow to run off. Air or towel dry with clean, soft wiper. Repeat as necessary. Protect rubber and plastic parts from spray.

IMPORTANT:

Do not spray on hot or warm surfaces. Adequate ventilation must be provided during use.
