DRI-LUBE

AEROSOL DESCRIPTION:

DRI-LUBE is a superior Teflon lubricant and release agent spray. It's a versatile lubricant with extreme high heat protection up to 600°F.

DRI-LUBE is a colorless, odorless, and non-staining lubricant with lubricating properties that excels where cleanliness is required. It's also great lubricant to use around plastics, wood, metal and glass surfaces.

DRI-LUBE repels water to protect against rust and corrosion. It's an extremely fast drying lubricant saving time and labor.

DRI-LUBE is a great lubricant for manufacturing, hospitality, healthcare and even fitness. Some applications include chains, cables, rollers, exercise equipment, door hinges, drawer glides, windows slides, latches, blade lubricant, drill bits, slide table lubricant, mold release and much more.

DIRECTIONS:

-Shake well, hold can 6 to 8 inches away from the surface to be sprayed. Spray area to be lubricated liberally.

-Apply as need for lubrication, release agent or rust and corrosion protection.

-When inserting the extension tube make sure the spray nozzle is pointed away from your face and eyes.
