

aerosol lubricants/greases

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

Multi-Purpose

Penetrates & Quickly Sets Up

-Withstands Extreme Temperatures To 500°F

-Handles Extreme Pressure & Heavy Loads

-Superior Water Resistance

-Non Chlorinated

SAFETY CAUTIONS

-Vapor Pressure: 25-46

-Volatility: B#5

Solubility: Insoluble

Specific Gravity: 0.81

-Vapor Density: N/A

-pH: N/A

-Evaporation Rate: B#5

Physical Description: Red

Grease w/Scj YbhCXcf

67817/2116

Keep out of reach of children.

Do not puncture or incinerate containers.

Do not store at temperatures above 130 ° F.

Avoid breathing vapors.

Refer to SDS for additional safety information.

HMIS RATINGS

INSTA-LUBE

AEROSOL DESCRIPTION:

INSTA-LUBE is a multi-purpose, heavy load, high temperature No. 2 red grease in a convenient easy to use aerosol. The product is extremely versatile and can be used on anything needing a heavy duty bentone based grease.

INSTA-LUBE sprays out of the can as a thin liquid. As the carrier evaporates, it quickly thickens and sets up into thick NLGI #2 grease. Superior cohesive, adhesive, clinging properties allows INSTA-LUBE to be used in wet conditions and allows it to be sprayed onto vertical surfaces without the fear of the product running off.

INSTA-LUBE lubricates moving parts to prevent wear, protects against rust, corrosion, and oxidation. Product contains no harmful chlorinated solvents.

Automotive/machine uses: Lubricate brake and gear shift mechanism, steering parts, hinges, latches, distributor cams, cables, tracks, gears, sprockets, chains, pumps, hinges, bearings and much more.

DIRECTIONS:

Hold container upright 6 to 8 inches from the surface to be sprayed. Spray area to be treated liberally and allow sufficient time for complete penetration, 20 to 30 seconds.

-For extremely rusted and corroded parts additional product made be used and tapping or heating may be required.

-Note: when changing the spray nozzle or inserting the extension tube always point the arrow on the spray nozzle away from your face and eyes.
