SAFETY CAUTIONS

- Keep out of reach of children.
- Avoid prolonged exposure to mist and vapors.
- Avoid flames, sparks and hot surfaces.
- Keep containers closed. Shelf life 1 year.
- Refer to SDS for additional safety information.

HMIS RATINGS

LOCK FREE ANTI-SEIZE

A5262/ DESCRIPTION:

LOCK FREE ANTI-SEIZE is an anti-seize compound which prevents galling, seizing, pitting, fretting, corrosion and distortion of threaded, keyed, spliced and press fitted parts and assemblies. It protects surfaces from fusing at sustained temperatures up to 2100°F.

This product is highly resistant to moisture, harsh weather, chemical fumes, salt spray and steam. It allows for tighter, more vibration-proof seals.

LOCK FREE ANTI-SEIZE enables easier disassembly by reducing torque requirements and providing semi-permanent lubrication.

DIRECTIONS:

Remove any old contaminated grease, dirt or grit.

Shake can thoroughly until agitator ball begins to rattle freely for at least 30 seconds.

With can held in upright position, spray surface in short bursts from a distance of 8 to 10 inches.

After use, invert can and clear actuator by spraying until only gas is dispelled.
