SAFETY CAUTIONS

- Keep out of reach of children.
- Store in closed, original labeled containers.
- Refer to SDS for additional safety information.

HMIS RATINGS

MACH I

LIQUID DESCRIPTION:

MACH I is a highly concentrated, very effective cleaner specially designed for the aircraft industry. This unique surface degreaser is non-irritating, but will completely remove heavy encrustations. MACH I has emulsifier system that powerfully cleans without fear of corrosion.

This product is the result of exhaustive research and testing that surpasses, not just duplicates, competitors' all purpose cleaners and degreasers. A water soluble, biodegradable, non-flammable, non-toxic concentrate, it may be used in pennies-per-gallon dilutions to out perform other cleaners. Pleasantly scented and stainless, it leaves no oily film or residual gumminess.

DIRECTIONS:

APPLICATION Use 20 parts of water to 1 part of MACH I. Proper dilution can be determined through actual practice and use of the product. Can be applied with a spray gun or by rag or brush hand application. On heavy buildup, rag or brush will aid cleaning. Just hose off and let dry.

MIXING Prepare solution in tank by using 1 gallon MACH I per 60 gallons of water. Actual use will determine final proper amount. Amounts of degreaser will vary with the job.

This unique degreaser will retard rusting and will not corrode aluminum or aluminum alloys.
