

# aerosol cleaners/degreasers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

## HIGHLIGHTS

- Degreasing Solvent
- Non Flammable
- Non Corrosive
- Low Toxicity
- 20 Ounce Can

## TYPICAL PROPERTIES

- Vapor Pressure: **60@ 20°C**
- Volatility: **N/A**
- Solubility: **Insoluble**
- Specific Gravity: **1.45**
- Vapor Density: **4.5**
- pH: **N/A**
- Evaporation Rate: **6.4**
- Physical Description: **Clear, Colorless Spray/Mist w/ Chlorinated Solvent Odor**

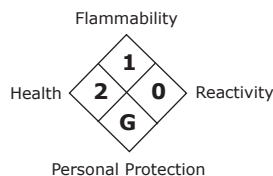

## SAFETY CAUTIONS

- Keep out of reach of children.
- Keep away from heat, sparks and flame.
- Use with adequate ventilation.
- Do not puncture or incinerate containers.
- Refer to SDS for additional safety information.

**FOR COMMERCIAL USE ONLY  
NOT FOR RESIDENTIAL  
(CONSUMER) USE**

## HMIS RATINGS

# MAGNATHENE

## AEROSOL DESCRIPTION:

MAGNATHENE is a degreasing solvent created for the telephone industry, public utility companies, municipalities and other industrial users. It can be used to clean and degrease motors, engines, typewriters, machine tools, refrigeration equipment, printing equipment, electronic equipment, electric fans, keys and locks, traffic signal boxes and generators.

MAGNATHENE is suitable for use on steel, chrome, copper and brass, glass, ceramic, marble, polyethylene, polypropylene, Teflon, epoxy, fabrics and coated surfaces.

## DIRECTIONS:

Spray surface thoroughly, using flushing action of spray when possible. Use scraper, scrub brush, abrasive pad or other appropriate means when necessary to aid in removing stubborn spots. Wipe off residual liquid with a clean rag or towel, or allow to drain off and air dry.

**ATTENTION:** Do not use on, or allow to get on, solvent sensitive surfaces or materials. Always test first by using on scrap material or on a small, inconspicuous area. Do not allow liquid to remain in contact with aluminum or similar metals for extended periods of time.
