STRIKE OUT

LIQUID DESCRIPTION:

STRIKE OUT is a water based pesticide developed especially to control bed bugs. When applied as directed on the labeling, STRIKE OUT will kill bed bugs on contact. 100% mortality occurs within 5-10 minutes of application, depending on life stage. STRIKE OUT is also effective on other insects, cockroaches, ants, millipedes, carpet beetles, and fleas. Any of the listed insects coming into contact with a surface treated with STRIKE OUT will be killed for up to 30 days after application.

STRIKE OUT Bed Bug Killer is made only with ingredients which qualify for the 25(b) exemption in the EPA Pesticide Regulations. The US EPA has identified a group of naturally derived chemicals as having pesticidal qualities which exhibit very low if any toxicity. These chemicals are identified in a special section of the EPA pesticide regulations known as section 25(b). In addition, the US EPA has identified a list of inert ingredients, again those which are generally considered to have very low to no toxicity, which can be used to formulate a pesticide with the 25(b) active ingredients. These products are not required to be registered as a pesticide by the EPA.

DIRECTIONS:

-Place trigger sprayer into bottle. Be sure sprayer is completely seated. Be sure sprayer is off. SHAKE BOTTLE VIGOROUSLY PRIOR TO APPLICATION. DURING APPLICATION SHAKE BOTTLE VIGOROUSLY EVERY 10 TO 15 MINUTES.

-Turn sprayer to setting for applying a mist, not a stream. Apply to all surfaces. Porous surfaces should be sprayed so they are just damp, not to saturation. Carpets should also be sprayed. In rooms or areas with limited carpeting, cracks and crevices should be treated with the sprayer set to a stream setting. Surfaces should be allowed to dry before reoccupying the treated area. Hold nozzle back 30 inches from spray area. Keeps sprayer moving at a rate of 3-4 feet of area per second. Do not overlap treated areas. Treat all surfaces including drapes, drawer surfaces, furniture joints, baseboards and other surfaces in the room. Be sure to treat all sides of surfaces on cushions, mattresses, bed springs, drawers, etc. For carpets, start with all areas underneath or covered by beds, couches, chairs and treat as above with the mist setting. Then treat all other carpet areas starting with the area farthest away from the exit, working towards the exit door.

-Once all surfaces have been treated, allow sufficient time for STRIKE OUT to dry. Once all surfaces are dry, replace all furniture, drawers, etc. to proper locations. Place freshly laundered bedding on mattresses and pillows. Lightly spray bedspread or comforter.

HIGHLIGHTS

- Kills Bed bugs when used according to Directions
- Non Toxic to Mammals & Environment
- Kills for up to 30 Days after Application
- Also Kills Cockroaches, Ants, Millipedes, Carpet Beetles & Fleas within 5-10 Minutes of Application

TYPICAL PROPERTIES

- Vapor Pressure: **17.5**
- Volatility: **N/A**
- Solubility: **100%**
- Specific Gravity: **1.01**
- Vapor Density: **1**
- pH: **7.0**
- Evaporation Rate: **Slow**
- Physical Description:

**Tan Solvent Based Liquid w/
Slight Cinnamon Fragrance**

SAFETY CAUTIONS

- Keep out of reach of children.
- Keep in a tightly closed container, stored in a cool, dry, ventilated area.
- Protect against physical damage.
- Isolate from incompatible substances.
- Solutions are corrosive to mild steel.
- Refer to SDS for additional safety information.
