

# liquid environmental

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

## HIGHLIGHTS

- Equipment Wash & Bioremediation
- Digests & Removes Grease, Oil, Fuel & Hydraulic Fluid
- Non Toxic
- Organic, All Natural & Environmentally Friendly
- NO VOC'S

## TYPICAL PROPERTIES

- Vapor Pressure: **19**
- Volatility: **92**
- Solubility: **Yes**
- Specific Gravity: **0.924**
- Vapor Density: **Heavier than Air**
- pH: **8.5**
- Evaporation Rate : **N/A**
- Physical Description: **Clear**

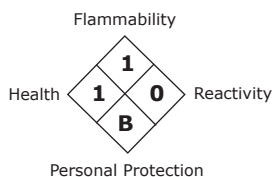

**Blue Liquid w/Characteristic Odor**

## SAFETY CAUTIONS

- Keep out of reach of children.
- Keep away from excessive heat sources.
- Refer to SDS for additional safety information.

## HMIS RATINGS

SINCE 1927

# MICRO CLEAN-GREEN Equipment Wash

## LIQUID DESCRIPTION:

MICRO CLEAN-GREEN is the latest in green cleaning technology that combines the cleaning power of the most effective heavy duty cleaners without the VOC's with the ability to actually bioremediate hydrocarbons.

MICRO CLEAN-GREEN removes and remediates hydrocarbon based waste from any solid surface. It is a combination of organic bacteria and dispersants that work together to break down hydrocarbons and remove them from the surface. Hydrocarbon digestion begins as soon as MICRO CLEAN-GREEN is applied and continues even after the product is washed off. The byproduct of this reaction is water, carbon dioxide and fatty acids.

MICRO CLEAN-GREEN has an outstanding environmental profile. It is readily biodegradable and contains a surfactant system that has superior penetration and removal of oil and grease particulate soils.

MICRO CLEAN-GREEN can be used for cleaning trucks, heavy equipment, parts washing and used in refineries and gas plants, also in areas where microbes are utilized to break down hydrocarbon waste.

## DIRECTIONS:

-MICRO CLEAN-GREEN is applied using a low pressure hand sprayer. After approximately 5 minutes the product is washed off using water under pressure.

-Heavy accumulations of contamination or stubborn stains may require several applications.

-MICRO CLEAN-GREEN may be diluted up to 40:1 with water.
